Subject: Draft Engineering Performance Standard Report
2016-12-30 Draft Report for LPR EPS-sent to GSH.docx

Attached is the draft Engineering Performance Standard Report that we sent to our group of experts, in preparation for the 1/26 meeting. You will see that, compared to the 12/7 draft, this one has some additions to the text to describe more model results.

The figures, Attachments A1, A2, B through E have not changed from the 12/7 draft.

Attachments F through J have been added – I will be sending those this afternoon.
